"THATCHERS"

A man's store where a personal intelligent interest is taken in your dress problems.

"You'll like Thatcher's Clothes."

The boys who have been engaged in the erection of the new barracks No. 3 at the U. A. C. decided to contribute and place an American flag on the structure. They all felt proud of the suggestion and were willing to contribute their share with the exception of one. One of the employees not only refused to do his share but made some rather insinuating remarks. He was immediately discharged by Contractor Olof Nelsen. Too bad that we have such narrow minded people among us. This particular man came from foreign lands and is now partaking of the American hospitality and yet refuses to even show a disposition to assist in making this a more desirable country to live in.

Good live man for soliciting, at once call 48. Adv. 11

SPANISH FLU AND COMMON SENSE

Dr. Treseder, Chiropractor, whose office is in the Arimo Block, reports that patients suffering with Spanish influenza recover rapidly by taking Chiropractic adjustments. He has had several cases and after one or two adjustments they had no fever, no sneeze, a light, loose cough, and felt quite well—in fact felt that they were out of danger.

Dr. Treseder maintains that if a person has sufficient resisting power he will not contract the influenza, even though millions of these germs are introduced into the body. The power of resisting germs depends on the proper activity of the different organs of the body and the reason that Chiropractic is so effective is because the defective organs are made to act properly under the adjustments; and further maintains that it is folly to try to kill the influenza germs, as they will come just as fast as suitable feeding grounds are found in the human body. The proper thing to do is to restore normal activity to the organs of the body, and in so doing there will be no occasion for the germs to remain there.

It is well known that sanitation prevents the spread of an infectious disease. This is because the germs thrive in an unsanitary environment. Therefore **SHOULD THERE NOT BE SANITATION INSIDE THE HUMAN BODY?**

Chiropractic adjustments make the internal organs healthy and strong, and this, in part, accounts for the excellent results obtained upon a person who has Spanish Flu.

Dr. Hutchinson, a recognized authority on health and sanitation, throughout the world and who has spent a year in France studying the health conditions, states in an interview in the Salt Lake Tribune of October 16: "There is no medicine will help, and that the influenza can only be thrown off by the patients own resistance powers"—which means that the organs must be working properly. Adv

counter at the Life Store Drug store where they are serving samples daily of Borden's Malted Milk. Miss B. Crisman is placed in charge of the demonstrating work. She simply fills the glass and gives it to you free of charge. They are doing this as a means of advertisement to show the quality of Borden's.

Single handed men and carpenters wanted. Apply to H. H. Dahle or Barracks No. 3 U. A. C. Adv-10-19

The farmers are looking over these days for men who can help with their best fields and help with the best harvest. Every man who can arrange his time should lend his assistance.

GERMAN MORALE IS OUT DREPLY BY U. S. REPLY

(Continued from Page One)

now in jeopardy of losing his crown by an act of expiation on the part of the German people. What the president has started it is better for the German people to finish.

If the Hohenzollerns are overthrown by direct mandate of the people there will remain the possibility of constant royal conspiracies in future years, with little chance perhaps of part of the German people. If Germany herself, however, forces the abdication, then the Hohenzollerns in truth will become the outlaws of humanity.

Practical Use for Them.

"What's the use of having two or three homes, as these millionaires have?" asked the idle wayfarer who wanted to start a little conversation. "There's a whole lot of use," replied the man who was beating carpets. "If I owned two homes I'd live in one while my wife was cleaning the other." —Birmingham Age-Herald.
